

mw3 Classic Software Demonstration

Issue 1.0
25/09/2012

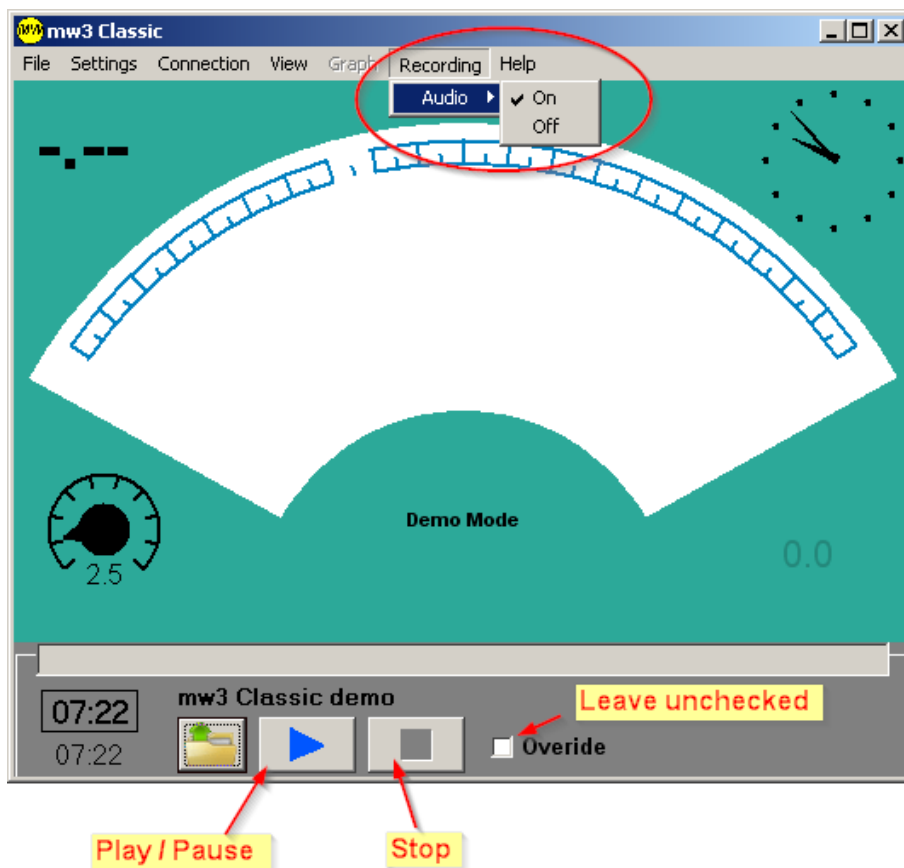

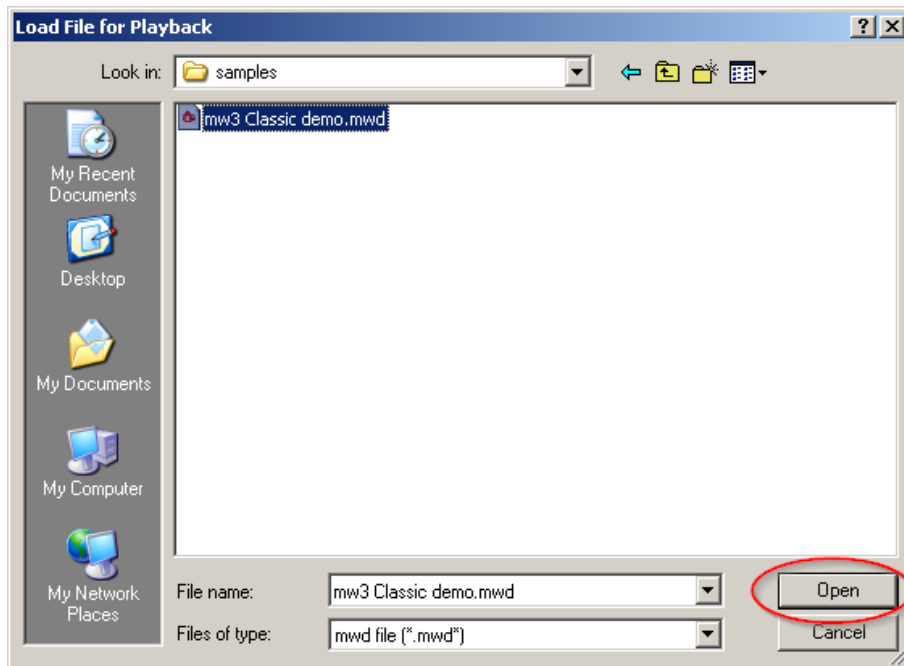

Install and run the *mw3 Classic Software* as instructed in the mindwalker Software Installation Guide.

When the program first runs it is configured to show the Recording Panel (menu **View>Recording** should be checked). If not select it from the menu.

Open the demo by clicking the Open File button and navigate to the demo file which is located in the samples folder of the mindwalker directory
(Program Files\mindwalker\samples\mw3 Classic Demo)

Ensure that the computer sound is working and the 'audio on' menu option is checked, then press **Play** and the demo will start.

For full operation details read the *mw3 Classic Software User Guide*.
